INTRODUCTION

The Grammar School Nicosia offers a diverse range of clubs and extracurricular activities for the 2025–2026 academic year. These activities provide students with valuable opportunities to explore their interests, develop new skills, and become active members of our school community beyond the classroom.

Below you will find a list of all available clubs and extracurricular activities, including the teachers in charge, supporting teachers, meeting frequency, and applicable year groups. Students are encouraged to join activities that align with their interests and goals.

CATEGORIES OF EXTRA-CURRICULAR ACTIVITIES

There are four main categories of extracurricular activities. Each category operates in a slightly different way:

- **Clubs** – Ongoing weekly or biweekly meetings after school that require regular attendance and commitment. – Students must register
- **Activity-Based** – Flexible activities that may run for shorter periods or specific projects. – No need for students to register
- **Educational Programme** – Short-term or fixed-period programs linked to external opportunities, collaborations, or projects. Meetings are arranged based on demand and usually require registration.
- **Cultural Societies** - Focus on creative expression and performance for school-wide events such as the Cultural Evening, Talent Show, and other official school celebrations. Participation in these groups is usually subject to auditions, after which the rehearsal program is designed and communicated by the respective teacher. These groups are event-oriented and their main objective is to prepare students for public performances that showcase their talents and enrich the school's cultural life.

TRANSPORTATION

Extra-curricular activities in particular clubs and cultural societies take place immediately after school on their designated days, unless otherwise announced. In case of schedule changes, teachers will inform students via email or Teams in advance, allowing enough time for students to use their regular transport.

At the end of each club meeting, transportation to Solomou Square is provided. Ending times vary depending on the activity, typically between 15:00 and 16:00.

When clubs organize out-of-school activities or excursions, transportation will be arranged and communicated beforehand, including the relevant pick-up and drop-off locations.

Please note that activities taking place outside the school premises may involve an additional participation fee to cover transportation or event costs.

CLUB REGISTRATION

Club registration and participation details are communicated through:

- The [GS Announcements Hub](#) (Microsoft Teams) under the Club Announcements channel
- **Bulletin boards** located in the **block corridors**
- Directly through the **Club Leader** or any of the Supporting Teachers

Students interested in joining any club should stay informed through these channels and follow the instructions provided for each activity.

COMMUNICATION

All club announcements, updates, and event invitations are posted in the [GS Announcements Hub](#) on Microsoft Teams under the **Club Announcements** channel. Students should check Teams and their school email accounts regularly to stay informed and avoid missing deadlines or opportunities.

For additional information or clarifications, students may contact the Club Leader (Contact Teacher) or any of the Supporting Teachers listed in the club's description.
